Medical storage range Price List

www.gratnellsmedical.com

Gratnells, the leading name in hospital storage.

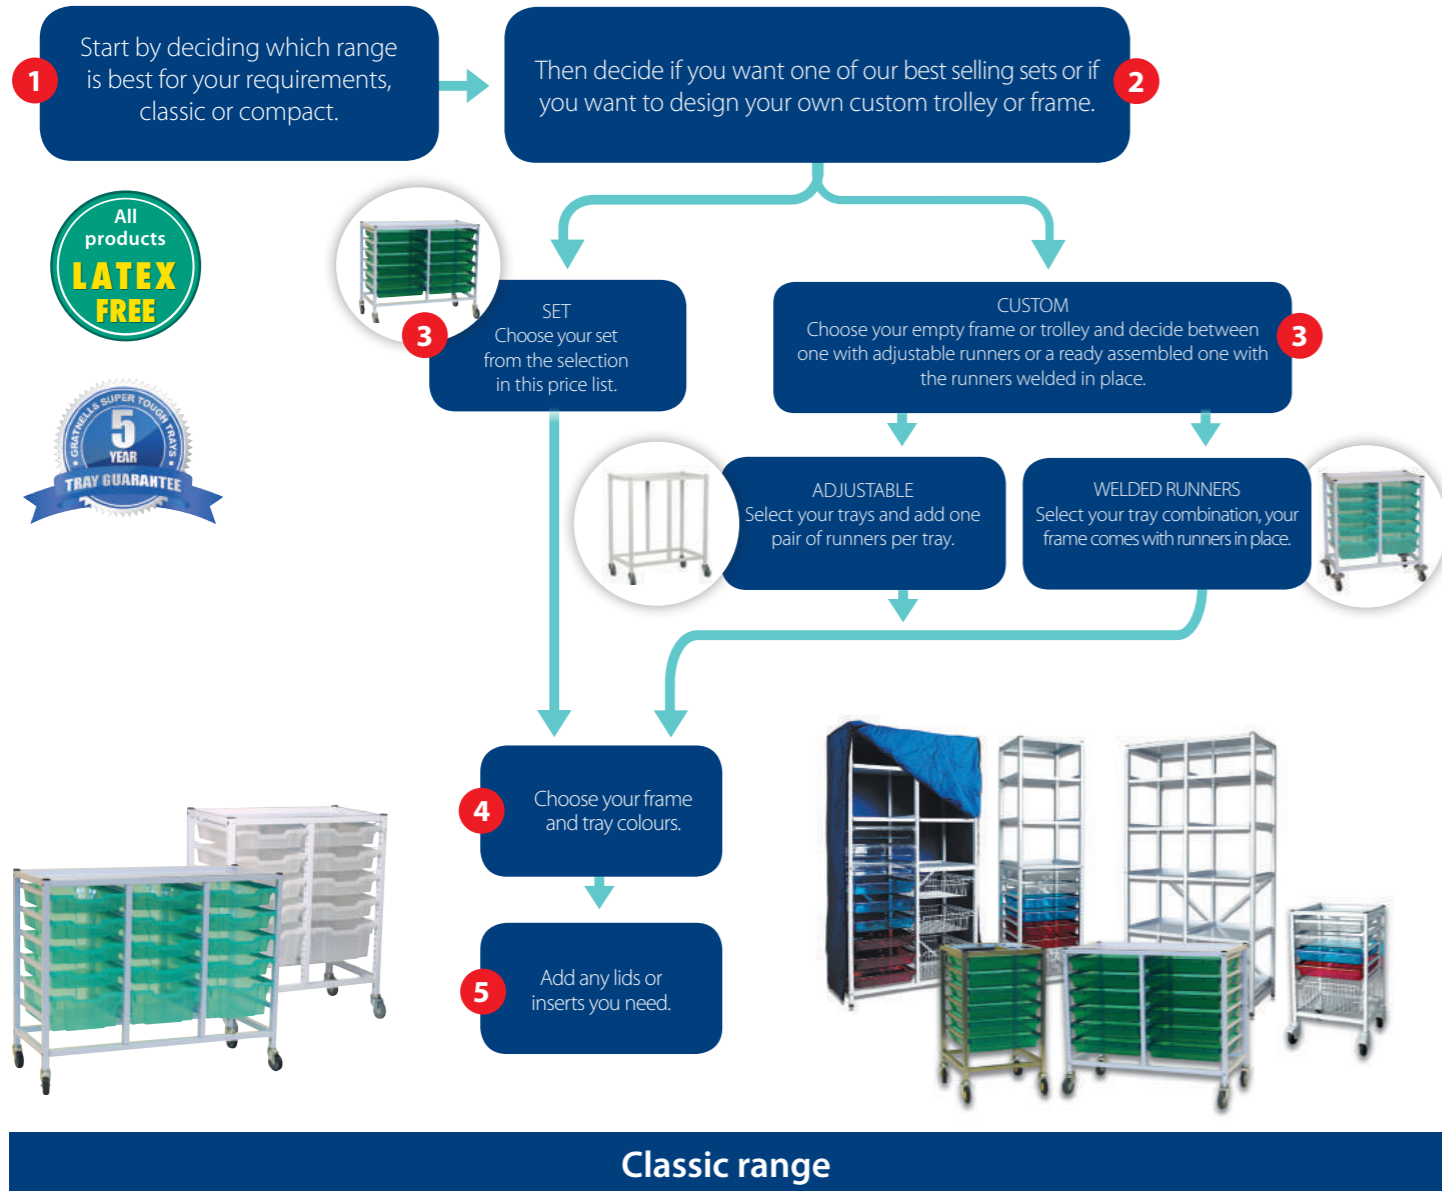

For nearly 40 years Gratnells has been one of the leading suppliers of storage trolleys and frames to hospitals. Our comprehensive range of products is ideal for all your medical storage needs – from storage frames and trolleys right through to trays, baskets, shelves and trolley accessories. The Gratnells system will give you maximum control and flexibility throughout the hospital, everywhere from the store room to theatres and recovery wards. Buy any Gratnells product safe in the knowledge there is a five year guarantee.

TWO RANGES - CLASSIC AND COMPACT

Our classic range of medical storage products is widely used in hospitals throughout the UK and we also offer a smaller compact range which is ideal when space is at a premium. Look out for our classic range and compact range. You will need to choose trays and other accessories from within the same range. That's it! To place your order simply call our customer service team on **01279 401550** or email us at customerservice@gratnells.co.uk

Ordering your Gratnells flexible storage is easy. Here's how...

Classic range

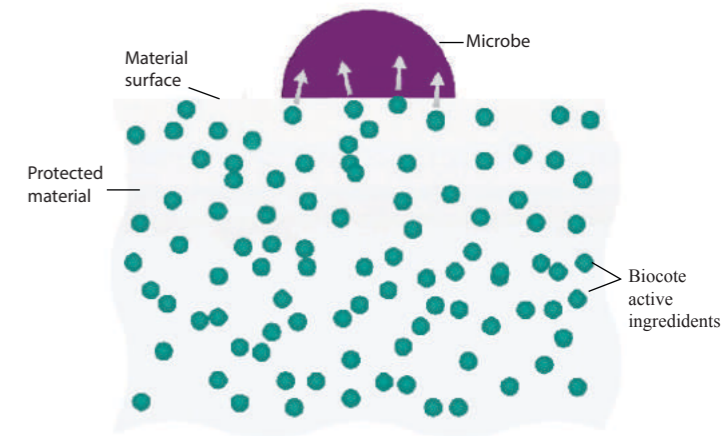

Setting the standard in hygiene and antimicrobial protection.

Helping you protect your staff and your patients by guarding against infection and the dangers of bacteria and fungi.

Protection against bacteria and fungi is important to any hospital, surgery or clinic. That's why we've created the Gratnells Antimicrobial System. Now, all of our storage frames and trolleys and even some of the storage trays that we manufacture are treated with BioCote® antimicrobial additive. This provides an additional level of defence against microbial contamination beyond your existing cleaning routine.

BioCote® technology is proven to be effective against a wide range of bacteria, fungi and the H1N1 virus. It reduces microbes by up to 99.99%, with significant reductions within 15 minutes and up to 99.5% reduction in just two hours. All Gratnells trolleys and frames and a selection of our trays are now treated with BioCote® bringing you a unique level of protection.

Leading surgeon recommends Gratnells medical trolleys.

Leading specialist hernia surgeon Martin Kurzer MB BS FRCS recommends the Gratnells medical trolley range.

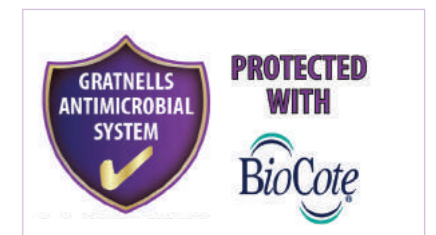

"I've been using Gratnells medical trolleys for many years, and I think they are the best you can get. They can hold an assortment of syringes, needles, gauzes, mesh, tubes, bandage materials and other essential medical items with no trouble at all. I find that I can combine baskets, trays and shelves to suit my different needs, depending whether I am in surgery, the examination room, my office or the recovery ward.

Gratnells trolleys are excellent value for money, especially as they are so hard wearing and long-lasting. And with new additions to the range, there's a storage unit to suit every hospital department.

For me, when it comes to medical trolleys, it's got to be Gratnells - every time!"

Compact range

Gratnells uses BioCote®, a leading brand in anti-microbial protection, on all our trolleys, frames and trays. BioCote® uses the natural sterilising properties of silver to prevent the growth of harmful bacteria such as MRSA and e.coli. For more information see www.biocote.com

Classic Trolleys - Fixed runner range

Fixed runner trolleys are the most popular choice in our classic range. All trolleys come with standard 100mm castors and tops. Some are available at 890mm and 790mm high. Use the tray fitting guide opposite when ordering trays or baskets.

PowerTray

The ultimate storage and charging solution for USB devices.

Gratnells PowerTray²

Intelligent USB device charging in an antimicrobial Gratnells tray.

PowerTray safely stores and charges up to 10 USB devices with intelligent charging technology. Each device receives an optimum charge rate and cycle time. Tested and certified to the highest operational and safety standards. It is silent in operation and comes in two size options. Perfect for any busy ward station.

Device storage and charging

PowerTray is available in extra deep and deep versions. Simply plug-in, switch on and PowerTray will charge any USB chargeable device. When not in use, the dust cover included, keeps everything clean and dirt free. The lockable compact trolley can store two extra deep or three deep PowerTrays. Easy cable management and vents to the back allow for devices to be charged whilst the trolley is locked. The trolley has a small footprint, is robust and features two locking castors for added security.

PowerTray
Store and charge 10 USB devices*
