

BULK RAW MATERIALS

SOURCING, STORAGE & SUPPLY

We are experts

Ocon Chemicals has more than 40 years experience in providing our Pharmaceutical, Medical Device, Dairy, and Food industry customers with high quality, fully traceable, bulk raw materials and functional ingredients sourced from certified suppliers.

At Ocon, we know that the quality of your finished products is directly related to the quality and correct handling of your raw materials. Consequently, we only work with world class suppliers with extensive experience in the manufacture of high quality active pharmaceutical ingredients (APIs) and excipients, as well as regular grade raw materials. We carefully select our suppliers to guarantee consistent high-quality, security of supply, and competitive pricing.

Call us to discuss your company's precise needs. One of our friendly team of experts will provide you with a quotation, technical data, samples, and certificates of analysis to support the approval process.

Tailored Solutions

We offer a range of quality, specification, price, packaging, storage, and delivery options to meet each customer's exact needs.

Specialist Storage & Transportation

Products are stored in our climate-controlled facilities to safely meet warm and cold storage needs. They are delivered to our customers in climate controlled vehicles with optimum quality and traceability guaranteed.

Change Control Guarantees

Products are supplied with a certificate of analysis. Our Change Control service means that proposed manufacturing changes are immediately relayed to the end customer.

GET IN TOUCH

We offer a secure, cost effective, customised service

Ocon are proud to offer our Life Science customers unique chemical supply solutions to meet and exceed every expectation. Our long term supplier relationships and distribution expertise allow us to offer a range of quality, specification, price, packaging, storage, and delivery options to meet each customer's exact needs.

Ocon's supplier selection and approval processes focus on ensuring our manufacturing partners consistently deliver high quality products, along with security of supply guarantees and competitive pricing.

Secure, on-time monthly deliveries

As a customer-centric organisation, Ocon understand that peace of mind around supply chain continuity is critical. As part of our commitment to delivering exceptional service and contributing to our customers' smooth and efficient manufacturing processes, we guarantee continuity of supply to meet critical production needs with **secure, on-time monthly deliveries**. We achieve this by placing a standing monthly order with suppliers for raw materials / ingredients 12 months in advance.

Competitive Pricing

We leverage our strong supplier relationships and efficient procurement processes to offer high quality raw materials at competitive prices. Bulk purchasing options offer economies of scale with significant cost savings without compromising on quality or finished product safety. Our optimised pricing strategies deliver the best possible value to our customers on their raw material investment.

Top 10 Production Products

- Ammonium Acetate
- Tris
- Phosphoric Acid
- Sodium Hydroxide
- Triethylamine
- Hydrochloric Acid
- Ammonium Phosphate
- Sodium Hydrogen Carbonate
- Calcium Carbonate

GRADES

Bespoke Chemicals & Packaging

As well as offering our customers a range of quality, specification, price, packaging, storage, and delivery options to meet precise needs, Ocon has established relationships with manufacturing partners for the development and supply of bespoke chemicals.

We also offer our customers a comprehensive range of packaging options to meet their needs. Our plastic, polymer, glass, paper, and aluminium packaging solutions available in a wide variety of standard and bespoke pack sizes, ensure that raw materials and ingredients are transported safely and securely to each customer's manufacturing facility.
